

## DEVICE MANAGED SERVICES

With more than 20 years' experience, we help you to manage and protect your mission-critical devices, freeing you up to focus on your core business.

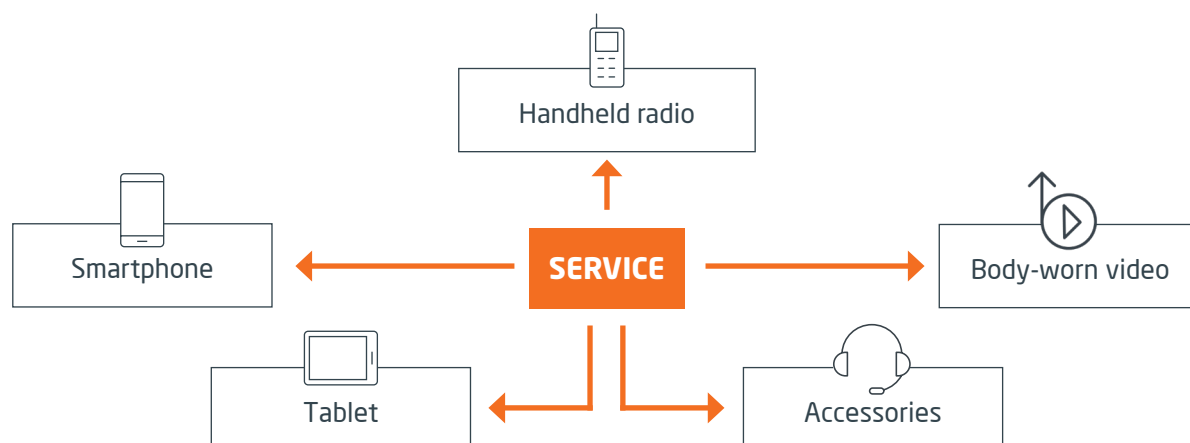

We currently manage more than 100,000 technological assets, including personal radio handsets, vehicle radios, body-worn video cameras, mobile phones and tablets.

Our marketing-leading services are underpinned by a UK-based 24x7 ISO-accredited service desk, a nationwide network of service hubs and a team of mobile field service engineers. So local support is never far away.

All of our employees are cleared to SC so we're ideally placed to support your large, complex and secure asset management requirements.

Whether you are a government agency, emergency service or commercial entity, NEC Software Solutions can provide the right solution for you.
